Skills

- knowledge of Linux software
- Linux Environment
- Linux
- Laptop Computers
- Personal computer maintenance
- Networking skills
- Network troubleshooting
- Hardware troubleshooting
- Software troubleshooting
- Software updates
- IT knowledge
- IT skills
- Web Security
- Security awareness

Summary

I am a Cyber security student with hands-on experience with Linux, computer troubleshooting and home server management for media and file sharing. Deployed network-wide ad filtering on a Raspberry Pi and built a basic robot using Python scripting. Have knowledge in configuring Cisco routers and switches (VLANs, access controls, routing protocols) to strengthen network security.
